PROFESSIONAL SUMMARY

I have worked for two years as a developer, mostly building React Js and working with MongoDB data. I am now doing an MSc in Computer Science at University College Dublin, where I am studying Text Analytics, Cloud Computing, Distributed Systems, Big Data and Information Security, with Machine Learning and Generative Artificial Intelligence modules coming in spring. I am looking for an internship, part-time or graduate developer role where I can learn on the job and work on Artificial Intelligence (AI) features that real users use.

EDUCATION

Master of Science in Computer Science (Negotiated Learning) **Sep 2026 - Current**

University College Dublin (UCD), Dublin, Ireland.
Currently a student. Focus: Natural Language Processing.

- Autumn 2026: Big Data, Cloud Computing, Distributed Systems, Text Analytics, Information Security
- Spring 2027 (upcoming): Gen AI & LLM, Data Mining with Python, ML with Python, Ethical Hacking, Adv. DSA.

Bachelor of Engineering in Information Technology (BE-IT) **2019 - 2023**

MVPs KBTCOE, Nashik under SPPU. (CGPA- 7.68)

TECHNICAL SKILLS

- **Frontend Development:** HTML, CSS, JavaScript, React.js, Bootstrap,Tailwind CSS.
- **Backend Development:** Node.js, Express.js
- **Database:** MySQL, MongoDB
- **Version Control:** Git and GitHub
- **Other Skills:** (**Tools-** VS Code, Postman), Object-Oriented Programming, RESTful APIs, Agile Development
- **Learning through my Master's:** Python, Natural Language Processing, Cloud Computing, Big Data, Distributed Systems, Information Security.

WORK EXPERIENCE

Rego Digital Solutions Pvt. Lmt. , Pune (Aug 2023 - Sep 2025)

Software Engineer - Fullstack

- Built and maintained web application screens in React.js, working with Node.js and Express.js on the backend.
- Made reusable React components and responsive layouts using Bootstrap and Tailwind CSS, so new pages took less time to build.
- Helped write REST Application Programming Interfaces with login authentication and middleware.
- Fixed slow MongoDB queries, which made data load faster.
- Worked in Agile sprints with six teammates, using GitHub for code and Postman for testing.

Scriptlet Solutions Pvt. Lmt. , Jalgaon - Remote (Feb 2022 - April 2022)

GUI Developer Intern

- Developed simple graphic user interfaces using HTML and CSS for web applications.
- Focused on creating clean, responsive layouts for a better user experience.

ACADEMIC PROJECTS

Food Delivery Platform

- Developed a responsive food delivery platform using HTML, CSS, Bootstrap, and React.js.
- Integrated dynamic listings, menus, and smooth navigation with React Router and Bootstrap.

User Management System with Authentication & File Upload

- Built a web app with login, create, read, update and delete operations, file upload and form validation.

Mobile Botnet Detection: A Deep Learning Approach Using SVM - Co-Author & Co-Developer

- Worked on a machine learning model that uses 342 static features of mobile apps to spot botnets, reaching 90% accuracy with few false alarms.

CERTIFICATIONS

- Capgemini's Campus to Technical Careers Training Program (Java Full-Stack Web Development).
- Google IT Automation with Python (with 6 Courses)

EXTRA CURRICULAR

- **Secretary**, Information Technology Student's Association (ITSA), Led technical events & workshops, boosting student engagement and teamwork.
- **Anchor**, College Cultural Fest, Hosted large-scale events, showcasing public speaking and organizational skills.
